SUMMARY OF OUTCOMES FOR THE MEETING OF THE WOOL INDUSTRY EDP USERS GROUP HELD ON TUESDAY THE 13th OF JUNE 2023

SUMMARY OF OUTCOMES

1.   Delivery Order Issues

1.1.   There were no further updates as there has not been any meetings, a meeting will be scheduled before the next WIEDPUG meeting.

2.   General Updates

2.1.   Adding the Ebale ID to the TC document

2.1.1.   The 84 record has been in the TC document for a long time but hasn't been used.

2.1.2.   AWTA will make a request to add the 84 record as an optional record into the TRV document for version 37, this will allow the eBale information to be transmitted. At this stage there is no requirement for the 84 record to be transmitted back in the TC document.

2.1.3.   There is no guarantee that all organisations will have the ability to transmit the data.

2.1.4.   It was noted that as long as the data is optional the group was ok with the inclusion.

3.   Other Business

3.1.   Handbook Update – Replace OZDE reference with AWTA

3.1.1.   A request was made to update references to OZDE in the handbook.

3.2.   Representatives were reminded that the handbook release is coming up in July.

3.3.   A query was made regarding eBale ID and how a broker can identify if a lot has eBales. It was noted that this was discussed in the January 2023 meeting and that the consensus was to use the Ebale field in the 84 record to start with. If this was deemed insufficient once the eBales started to be used the issue can be addressed.

3.4.   A query was also made regarding education and implementation of eBales. This was deemed not to be an issue for WIEDPUG, this will be followed up by AWEX after the meeting.

4.   Next Meetings

10:00am AEDT Tuesday the 10th of October 2023

10:00am AEDT Tuesday the 30th of January 2024

10:00am AEST Tuesday the 16th of April 2024

10:00am AEST Tuesday the 4th of June 2024
