

**SUMMARY OF OUTCOMES FOR THE MEETING OF THE WOOL INDUSTRY EDP USERS
GROUP HELD ON MONDAY THE 12th OF MAY 2008****SUMMARY OF OUTCOMES****1. Mulesing Status Addition to Test Certificates**

Requests have been received by AWTA from several wool industry bodies to include mulesing status on test certificates and a matter of urgency was expressed. The issue is continually evolving and had significant backing from all industry sectors as it is a very sensitive issue for the wool industry.

Three proposed options were outlined to allow for the transmission of the data. The preferred solution was where the data would be added to the 50 record. This was agreed upon and Version 30.1 of the handbook would be released with the changes included for implementation on 21st of July 2008.

2. Next Meeting

The date for the next meeting is TBA.
