

21 February 2019

2019-21 Wool Classer Re-Registration **CLOSING** 28TH February 2019

The 2019-21 Wool Classer Re-Registration will be closing on 28th February 2019.

Classers who have not re-registered by the 28th February 2019 will be deemed 'unregistered'. Only wool prepared on farm by a registered classer is eligible for a 'P' certificate.

Wool prepared by previously registered classers prior to 1st March will be eligible for a 'P' certificate but **MUST** have supporting and completed/signed documentation (i.e. specification).

From 1st March, you can check a classer's registration status by:

1. Contacting AWEX direct on 02 9428 6100,
2. Go to the AWEX website (image below), or
3. Go direct to the web page <http://www.awex.com.au/wool-classer/wool-classer-validation/> where you can check an individual classer's status by entering the classers STENCIL NO. & LAST NAME

As part of the weekly catalogue validation routine, AWEX checks the status of a classer's registration against the certificate type for each clip/lot.

Classers, yet to re-register, have been advised of the pending closing date of re-registration either by email or mail and the date has also been published on the AWEX Facebook page.

For more information please contact:

Fiona Raleigh	Registrar of Wool Classers	02 9428 6144	woolclasser@awex.com.au
Nigel Stewart	IT & Systems Manager	02 9428 6100
