	21.00		1	1
		5	9	14
Total		48	76	124
		39%	61%	100%

The AWEX Eastern Market Indicator (AWEX-EMI) is a basket of **124** types. The selected types reflect the overall offering in selling centres on the East Coast. The two regional indicators (Northern & Southern Regions) are a subset of the AWEX-EMI:

- The Northern Region Indicator (Sydney) consists of **48** types.
- The Southern Region Indicator (Melbourne) consists of **76** types

The North/South ratio (39% / 61%) within the AWEX-EMI mirrors the offering balance between these two regions. As Southern Region has a larger offering over a 12-month period, it receives a heavier weighting within the AWEX-EMI. This regional weighting is reviewed and adjusted periodically.

Each of the regional indicators within the AWEX-EMI is structured to mirror the offering in each of those regions. These indicators are weighted according to key characteristics, including:

- Wool type (Merino Fleece, Skirtings, Crossbreds, Oddments)
- Micron
- Length
- Strength
- Style
- Vegetable Matter percentage

Due to the different offering profiles within each region and hence differing basket compositions, the regional indicators are not directly comparable.

Australian Wool Exchange Limited
